Blood Bank at Legion Hall July 16th

Traditionally the July Blood Bank is the biggest of the year in Crawford County, and never in our memory has blood been more needed than right now!

The Flint Regional Blood Center of American Red Cross which serves Northern Michigan is running more than 20% below normal because of the severe layoffs in the automobile and related supplier plants in the Center's area. The Detroit and Lansing Red Cross Regional Blood Centers are in equally critical supply status.

Heroic efforts are being made in those key cities to increase Volunteer Blood Doning by special promotions, keeping open on Sundays, and the like, but in many instances elective surgery is being postponed due to the shortage of blood.

So, Good Neighbors of Red Cross in Crawford County, please, mark your calendars for Wednesday, July 16th, and come to the American Legion Hall in Grayling between noon and 6 p.m. and make that most generous gift that only you can give—a pint of your precious life saving blood!

Don't forget, CRAWFORD COUNTY DIAL-A-RIDE will pick you up and take you back free, if you come to the Blood Bank to give blood. Just dial 348-5409.

Help us make sure that despite the problems elsewhere there will be no shortage of blood for our friends and neighbors in Mercy Hospital who need it!

DON'T FORGET: AMERICAN LEGION HALL, WEDNESDAY, JULY 16th, NOON UNTIL 6 P.M.

To Let Bids on Railroad Crossing

Bids will be taken on July 16 in Lansing on key transportation projects in Crawford and Roscommon Counties calling for resurfacing the approaches on M-72 to Detroit and Mackinac Railroad crossings in Grayling and on M-18 in Roscommon according to State Senator Mitch Irwin of Sault Ste. Marie.

The projects, at an estimated cost of \$50,000, are expected to begin as soon as possible, and be completed by November, 1980.

"I'm pleased that the Department of Transportation is able to move these projects forward," said Irwin. "It is critical to our economic development and job creation efforts. It will improve our tourist traffic capabilities."

Mt. Pleasant—An energy workshop for junior and senior high school teachers will be held Aug. 4 at the Holiday Inn in Grayling.

Sponsored by the Central Michigan University Department of Industrial Education and Technology, the workshop is one of several being held throughout the state this summer. The program will include a discussion of the energy crisis as it affects our lives, guidelines for energy conservation, and instructional and resource materials on energy and energy conservation.

According to Louis Ecker, a member of the IET faculty and director of the series, workshop participants should be able to reduce their energy consumption by 15 to 30 percent.

A \$10 registration fee, which is due July 21, covers the workshop and a noon luncheon.

For more information or to register, contact Ecker at the Department of Industrial Education and Technology, CMU, Mt. Pleasant, Mich. 48859, (517) 774-3996.

"Buckeye Brigade" Wrapping Up Annual Summer Training

THE GENERAL "TOWS" THE MARK—Brigadier General James Abraham, Assistant Adjutant General of the Ohio Army National Guard, sights in a TOW anti-tank missile launcher during summer training exercises at Camp Grayling, Michigan. Looking on are (L to R), Specialist fourth class Edward Mascus, of Cincinnati, Sergeant William Coker, of Cincinnati, and Specialist fourth class Edmund Strickling, of Akron. Mascus and Coker are members of the Ohio Guard's 37th Infantry Brigade. Camp Grayling—The 3,000 men and women of the Ohio National Guard's 73rd Infantry Brigade ("Buckeye Brigade") are completing annual summer camp training exercises and preparing to return to Ohio.

The infantry troops and their supporting units will convoy back to the Buckeye state on Saturday.

The highlight of the second week of training at Camp Grayling was a four-day bivouac designed to simulate actual combat conditions, including aggressor activity and night operations.

Some of the tactical training in which Guard troops participated during the bivouac period included platoon defense, patrolling, artillery live fire, airborne operations, and parachute jumps.

Guardsmen and women returned from bivouac today to begin packing for the trip home.

Sheriff's Department Reports Busy 4th of July Weekend

Once again the Crawford County Sheriff's office reported a busy weekend. According to Sheriff Joe White, major investigation activity centered around 9 breaking and enterings, and 9 malicious property destructions. Two local businesses, Davis Jewelry and Jack's Diner were the targets of vandalism, with rocks and bottles being thrown through windows. A broken window was also reported at Grayling High School.

Officers were also busy on county roads over the traffic-infested 4th of July. A major accident occurred on 7 mile road and Johnson road when a car driven by Phyllis Haight of Roscommon collided with a car driven by Frederic Pierce of St. Clair Shores. In all 7 people were injured, none seriously, in the accident which Deputies attributed to dusty conditions which prohibited good visibility. The accident occurred at approximately 2 p.m., July 4th.

Among the Department's 71 calls were 3 D.U.I.L. complaints, 1 Reckless Driving, 2 Drunk and Disorderly, 1 Assault, 1

Stolen Vehicle Recovery, 4 dog bites, 5 marine violations, and 1 fleeing and eluding. In addition the ambulance was called on five occasions.

In a major incident not yet released through the Prosecutor's office, another criminal sexual assault was reported over the weekend.

Once again Sheriff White noted the rise in B & E's and Vandalism. The Sheriff's Department continues to encourage local residents to be wary of suspicious activity and to report any incidents immediately.

New Games Festival

It's time to mark your calendars for the Roscommon County Fair New Games Festival on July 13th the Roscommon County Fairgrounds. The festivities start promptly at 10:00 a.m. and run to approximately 2:00 p.m.

What's New Games, you ask? Well, it's volleyball or soccer with a 6 foot earthen ball, tug of war over a mud puddle, or how about hug tag?

In fact, New Games is any game that's exciting and enjoyable but requires no real athletic ability. New Games is for everyone, and is based on participation, not spectatorship. No winners or losers, just a lot of fun. When a game is fun for everyone, we all win together.

Our hope is to create new perspectives on how to work and live with other people.

Bring your grubby clothes, your spirit of adventure and your sense of humor to the Roscommon County Fair New Games Festival on Sunday July 13th. This is a supervised day of fun with NO ADMISSION CHARGE. Come on out and enjoy.

Work Crew Begins Summer Projects

After planting over 26,000 seedlings this spring, the Crawford-Roscommon Soil Conservation District Work Crew began work on it's summer projects.

This is the second summer of operation for the District Work Crew, which was hired by the Crawford-Roscommon Soil Conservation District to assist landowners in completing desired conservation practices.

The first project this summer, a red pine thinning, will release the remaining red pine allowing them to grow into useful timber. Brush from the thinning was hauled out and

stacked into piles to produce useful wildlife habitat.

It is also possible that your wood-lot is eligible for Federal cost-share assistance for making the thinning. If you have a plantation or woodlot you think may be in need of thinning, contact the SCD in Roscommon; 409 Lake Street; P.O. Box 156; telephone 275-5231.

Other projects the crew is available for are streambank erosion control, critical area seeding, wildlife habitat improvements, tree planting, Christmas tree pruning and harvest, etc.

Students Visit Mexico

raising money all year for a visit to Mexico might not appear to be the makings of a major campaign. But, the

itinerary passed out by GHS Spanish Instructor Nancy Lemmen to her class and chaperones began at the

Traverse City Airport June 10 and called for a solid week of travel and sightseeing. In the space of seven days the group of nineteen students and two additional chaperones, JoAnne Ferguson and Jan Kammer, toured their way through selected sections of the Mexican countryside.

As Nate Kolb, a Freshman member of the group put it, the trip was one experience after another. "We got to meet new people and see the lifestyle of a foreign country. We saw their everyday style of living." Kolb said. For others the trip had other value. Evonne Steffes, a tenth grader related, "Seeing the open-roofed houses and all the poverty made me really appreciate what I have at home. The immersion in the high activity of Mexico City also left other impressions. Sophomore

Grayling, Michigan—Thursday, July 10, 1980

From Our Corner ...

Ideal weather prevailed over our little hamlet for the three day 4th of July weekend, with Michigan weather taking over Saturday for the Grayling Booster Club sponsored celebration...the morning was sunny with a light breeze, and then right after the parade clouds moved in and the temperature dropped about 20 degrees, but we escaped the rain that was reported elsewhere, and stayed cool through the fire works display...

A tip of the derby is due Bill Duke, president of the Boosters, Bud Joyce, parade coordinator, and all the faithful members who turned out to help in making the 4th another one to be long remembered...also not to be forgotten are the firemen who give up their time to handle the shooting of the fireworks, that are always a success...

Without a doubt this year's parade was one of the largest and successful parades in a long time...neighboring towns furnished floats and our own younger generation to our senior citizens participated...

Two separate segments of and during the parade should have special mention...our tip of the derby to the men of the 281st Aviation Co., of Scott Air Force Base, Belleville, Illinois who participated in the two flyovers of helicopters during the parade for giving their time. The 281st is here in support of the Ohio Brigade during their two week training and is commanded by Maj. John F. Harryman...

The other participation was by our own Michigan Guardsmen of M.A.T.E.S. who live among us...The huge truck and tank was the first that we can remember of that size entered in a parade here...the tank is a Howitzer M109-A3 and is one of the latest in the 155 millimeter for our defense. The truck is a Heavy Equipment Transporter, M 911 tractor and the trailer is M 747 capable of hauling 60 tons...

To everyone who had a part in this successful 4th of July celebration...it was a job well done...

It is beyond our comprehension how we have people (if you want to call them that) who live among us and have no regard for the property of others...there are times one has to wonder if it is worth trying to make things look nice on your property to enhance the environment of which we live...there is a committee in Grayling whose work is to try to beautify our city...then we have the faction who roam our streets at night deliberately ruining everything that meets their fancy at the moment...last Thursday night or early Friday morning when decent people are asleep some brazen person or persons decided that the little maple tree growing in front of the Grayling Mercantile must be in the way so they broke it off...now to us that really takes a man to accomplish...if you want to consider some men as worms...we hope who ever did it are real proud of themselves...we often wonder what they think when they look at themselves in the mirror in the morning...it must be nauseating...

Just in case you skipped over the front page to get to our corner...back track...things are beginning to look up for those who have to use M-72 West everyday...the Michigan State Highway Department has not forsaken us...bids are being let in Lansing for the reconstruction of the tracks crossing M-72...the completed project is scheduled for November of 1980...this is the best news for denture wearers since the discovery of orange pop...

Garnetta Findlay sent in this little quote: "There is No other Solution for Humanity but to Build the WORLD ANEW in the SPIRIT OF CHRIST", (Pope Pius XII)

We got a head start on this turkey this week...Sunday afternoon to be exact, so now all we are doing is putting the finishing touches to it...something is really bothering me right now, we were talking to a couple friends and they asked when our anniversary is...danged if I can remember...it's either the 6th or 8th...and either way were going to be in hot water...we just called Toni, it's the 8th, now we can surprise the bride and wish her happy anniversary Tuesday morning...

That turns the corner for tonight...have a nice weekend...plan on attending Frederic's Homecoming, July 10-11-12-13...

From Calvary Baptist Church

A BATTLE WON AGAINST ABORTION

The Supreme Court recently ruled that the federal government and individual states are not required to pay for welfare abortions. This is a major victory for millions of unborn babies. Although abortions are still legal, they need no longer be financed by tax money.

Governor Milliken still has his head buried in the sand. The people in 1972 told our state government we don't want abortion in Michigan! Our state lawmakers have repeatedly attached legislation riders barring state-paid abortions, but the governor vetoes every such action. In the Detroit news, July 1, 1980 edition, John Broder said, "The governor feels strongly that since abortions are available to more affluent

women, they should be provided to poor women & paid for under medicaid just as other medical services are."

The state of Michigan pays out between \$3.5 million to \$4 million annually for around 14,000 medicaid abortions. Who does Milliken think he is, God? How can our system of government permit one man to override the majority wishes of the citizens of the State of Michigan; the majority wishes of the State legislature of our elected officials; spend up to \$4 million of our tax dollars; and supported the murder of some 14,000 of our own citizens? If the citizens of Michigan don't raise up and stop Milliken, we will surely have to apologize to Adolph Hitler for our part in WWII.

In Political Science studies in college, I have no remembrance of any philosophy of human government which advocated the termination of human life of innocent individuals at government expense. On the contrary, it became my understanding that one of the primary requirements of any human government is to protect the life of her people.

Milliken "feels strongly" that he should provide the same medical services for poor women as are available for the affluent. If I understand Milliken right, he does not believe in discrimination between human beings based upon financial status. What about viability status? Can the quality or quantity of human life become a basis for discrimination? During the birth process, what parts of the baby must be exposed before he is a human being? Or is the whole matter based upon the subjective whims of the mother? Yes, Milliken, all discrimination against people is bad, but discrimination over the quantity and quality of one's finances is minor compared to discrimination over the quantity and quality of one's human life! Poor people do have a measure of control in acquiring money, but babies have no control over the decisions of others to deprive them of life! (adv.)

Pastor Barnett

"Make sure your car insurance protects you in 'no-fault' states."

"If you're planning on a long trip by car, chances are, you'll be driving through states with 'no-fault' insurance laws.

"If you're covered by an Auto-Owners policy, you can relax. Auto-Owners provides protection automatically under its bodily injury and property damage liability coverage in 'no-fault' states.

"This kind of far-sighted protection is just one of the reasons we recommend Auto-Owners Insurance to the people we serve."

Auto-Owners Insurance

is for auto owners, too.

**Would You

Appendix?**

Most families remedy sniffles and colds with home treat-
ments; rest, fluids, and a couple of aspirin do wonders. But when
it comes to something major, from a broken leg to a sudden
sharp pain in the tummy, most people don't mess around—they
call in a professional.

Outside of remote villages in the wilds, you don't hear about
an amateur setting bones. As for an inflamed appendix—well,
even if you DID know how, you'd be too close to it to do a good
job.

Selling a house calls for a professional, too. A real estate
agent can take the pulse of the area and diagnose how values are
building. The broker can recognize the symptoms of delayed
small repairs that would make a prospect more than curious
about the large ones. He can prescribe the right medicines for
fixups that make a home more salable. Consultants are called in,
too, at no cost to you; through co-operative selling, other agents'
prospects will also see your home. A good real estate broker will
come up with the final diagnosis of how your home should be
sold. The treatment: specialized handling of all the details. The
result: the best price for your home.

Let an expert remedy your house-selling blues. List with

New Bible Study Fellowship

Rev. T.B. Smith, Director of Missions for the Northland Baptist Association reports that a new Bible Study Fellowship will begin in Grayling. The Bible Study Fellowship is the culmination of many hours of hard work by a group of college-age students and adults during the week of July 1-5, in the Grayling area. These young adults are appointed Summer Missionaries by the Home Mission Board in Atlanta, Ga. and will spend their summer doing this kind of work directed toward starting new Bible Study groups.

The Bible Study Fellowship will be a bit different than the usual in that it will have a study for every age group. This group will be led by a local couple, Mr. & Mrs. Bill Campbell and will meet on Wednesday evenings at

7:30 p.m. at the corner of W. M-72 and Fig St., in the old Sport Shop building.

It is the anticipation of those involved that this fellowship may develop into a full program with Sunday Services. The survey made by the youth, though incomplete, reveals that there are many people in the Grayling area interested in this type of program.

If anyone is interested, but cannot attend the Wednesday evening meetings, they may contact Rev. T.B. Smith, P.O. Box 583, Roscommon, 48653, or call (517) 275-8171 for more information.

Celebrate 50th Anniversary

Mr. and Mrs. Kenneth Allen of Frederic celebrated their Golden Wedding Anniversary on Sunday, June 29, 1980. They were feted with a lovely dinner and Open House at the Frederic Town Hall, hosted by their sons and families, Mr. and Mrs. Dale Allen of Lansing and Mr. and Mrs. Fred Allen of Grayling.

The former Evelina Barber and her husband were married June 28, 1930 in Frederic by a former pastor, Rev. D.N. Earle. Their attendants were Mr. and Mrs. Elroy Barber, who were married 50 years ago on May 24, 1930, and celebrated their Golden Wedding Anniversary June 28, 1980 at the Town Hall with a lovely open house hosted by their children.

The Allen's have made their home in Frederic except for six years, 1936-1942 they spent this time in Big Bay, Michigan, while Mr. Allen worked for the former Kerry & Hanson Lumber Company of Grayling, who had purchased timber there. While in Big Bay they made a host of friends, two of whom, Mr. and Mrs. Peter Hutter now reside near Marquette, attended the celebration.

The Allen's received many lovely and useful gifts, a money tree, many beautiful cards and money, all were greatly appreciated. They received many congratulations on their long wedded life, from their many friends and relatives, who came from Florida, Rhode Island, Wisconsin, Illinois, Brighton, Royal Oak, Fife Lake, South Boardman, Jackson, Union Lake, Johannesburg, Maple Forest, Lansing, Grayling, Bath, Holt, Inkster, Marquette, Traverse City, Ortonville, Kalkaska, Charlotte, Calendonia and Grand Ledge.

The Allen's have four grandchildren, Ronda, Denise, Clark and Claudine and one great grandchild, Kenneth Dale Carl.

The Allen's were hosted with a early 50th Anniversary Party by their neighbors and friends on Saturday, April 19th in Zephyrhills, Florida before returning to Frederic. They received a lovely gift.

Students

(Continued from Page 1)

Robyn Jorgenson, in reference to the large street population of the city said, "I feel more secure in Grayling. People seem to look out for each other more. In Mexico they have to look out for themselves, sometimes by begging for money in the streets."

According to Mrs. Lemmen, the trip also had a lasting affect on the student's abilities as bargainers and barterers. Most of them went into the market

places as novices and emerged as veteran hagglers. They proudly told stories of how they were able to talk vendors and merchants down to reasonable prices, and one member of the tour, Freshman Rob Holzman, became the resident expert on the daily rate of exchange from American dollars to Mexican pesos.

Throughout the week the group toured in three distinct areas. First, they walked and ate their way around Mexico City, then headed by bus into the mountains to bump around the dusty silver mining town of Taxco which has been preserved by the Mexican government much as we have preserved Greenfield Village. Finally, as a way to wind down and relax, they jammed themselves into another bus and rode to Acapulco where they lounged on the beaches as confident, seasoned tourists.

Of course, as part of their experience, several members of the group told of their bouts with Mexico's infamous water supply. As Mike Petrie told the tale, "They said you couldn't drink the water, but I drank it and only got an upset stomach!"

There were other stories too: Getting lost in Mexico and forgetting how to speak Spanish; trading American pens and selling American T-shirts to townspeople; drinking purified water and purified ice cubes in restaurants; having your watch stripped from your wrist while walking through crowds and watching a Chinese cowboy movie, dubbed in English with Spanish subtitles.

Yet, they came through it all with keen appreciation for their journey. Mrs. Lemmen pointed out that there was also great educational value in the trip. "Many students were able to use Spanish some of the time", she said. In addition the trip provided the group with the chance to come in close contact with another culture. As an added benefit, each student was responsible for funding such an expensive vacation. Most of the nineteen students raised all their own money. In order to offset the \$600 price tags of the tour Mrs. Lemmen's class also had all types of fund raising events throughout the school year with the profits going to the students to help defray expenses.

Now, they are all back in Grayling. They have Acapulco tans on their faces and Mexican dust in their shoes. They will recount their stories hundreds of times, turn them over again and again, remembering new details and faces. They will have that look of a person who has been places; that look of the person who picked a destination and experienced all the place had to offer.

Bits O'Talk

By Fay Bovee

Mr. and Mrs. Carl Reynolds and Keith vacationed for two weeks near Kissimmee, Fla. They visited Disneyworld and St. Augustine. Sandy's mother, Mrs. Joan George, and Mrs. Jean Elsey took care of the Carousell while they were gone.

Michelle Reynolds has joined the US Army and left two weeks ago for Fort Jackson, South Carolina.

Cincinnati Holds Baseball Clinic

Baseball fans and players had a special opportunity last week when the Cincinnati Reds held their first baseball clinic in Grayling last Saturday and judging from their response it will not be the last. Gene Bennett the Mid-west supervisor for Cincinnati, Fred Hayes, their Michigan scout and Mel Wysong, their Indiana scout were lavish in their praise of the Grayling clinic.

More than 80 boys attended, coming from all over the state and Canada as well. One participant from Iron Mountain traveled for two days in order to perform and learn from the three baseball experts.

Several criteria were used to determine a boy's ability. For position players the scouts determined that a boy must be able to run 60 yards in less than 7 seconds and throw a ball over 275 feet. Boys who desire to be pitchers must be able to throw a ball over 90 miles per hour on the radar scope.

Gene Bennett, 27 years as a player and scout for Cincinnati, said the most promising of the boys from each camp will be invited to the University of Michigan for the finals. Bennett added that he would enjoy hearing from anyone who participated in the clinic to contact him concerning suggestions for improving next year's event. (Joe Schrader Photo)

"Loose Change" Instant Game

What jingles in your pocket, lays on top of your bureau and could put half-a-million dollars in your bank account? The answer is "LOOSE CHANGE", and that is also the name of the Michigan Lottery's newest instant game which goes on sale Tuesday, July 8, 1980.

Your "Loose Change" could help you to win up to \$5,000 instantly, or the Grand Prize of \$500,000. Here is how it is played.

The lower portion of each "Loose Change" ticket contains six coins, and under each coin is an amount. If the total of all six coins amounts to more than 100 (i.e., \$1.00), the player wins the prize indicated under the spot marked "Prize Box".

Winners of \$25 prizes who file a claim within ten (10) days after the announced end of the game qualify for the elimination drawing to determine the ten finalists for the Grand Drawing.

The game consists of 30 million tickets printed for distribution, with over \$12 million in cash prizes. Overall, the odds of purchasing a winning ticket are approximately one in four (1:3.6).

The ten Grand Drawing prizes are as follows: 1st (Grand) Prize \$500,000; 2nd Prize \$50,000; 3rd Prize \$40,000; 4th Prize \$35,000; 5th Prize \$30,000; 6th Prize \$25,000; 7th Prize \$20,000; 8th Prize \$15,000; 9th Prize \$10,000; 10th Prize \$5,000.

Lottery agents will redeem "Free Tickets", \$2, \$5 and \$10 winners. Tickets winning \$25 or \$100 may be claimed at a Lottery Claim Center. Players who win \$5,000 should file their claim at a Lottery Regional Office, or at Lottery Central in Lansing. These offices are located as follows: Grayling-Lansing County Building; Lansing-6545 Mercantile Way; Marquette-105 E. Washington; Oak Park-13391 W. Nine Mile; Portage (Kalamazoo)-5232 Portage Road; Saginaw-310 Johnson (Downtown Saginaw Mall).

Instant winners of \$25 or more will be paid by check once their Lottery claim form has been validated and approved for payment. The prize check is mailed to the address provided by the claimant. Grand Drawing winners will be paid in full immediately following the drawing. The date, time and location of the elimination drawing and the Grand Drawing will be announced within one month after the end of the game.

A gridder remembers

RICHARD MILLIMAN

Brad Budde must be some kind of guy...the kind of guy who can restore at least a little faith in mankind, even to the most cynical.

Budde plays football by trade. He was an all-american offensive tackle at Southern California, one of the most productive of America's football factories.

In the recent selection of college seniors by the professional football teams, Brad Budde was the first pick of the Kansas City Chiefs, which was fitting, indeed, because Brad's dad, Ed Budde, starred for the Chiefs for many years, and Brad grew up and was educated in Kansas City. In an aside, Ed Budde played his college football at one of the most productive of America's football factories several years back, namely Michigan State University.

Brad's contract with the Chiefs is somewhat unusual, according to news reports. For example, it calls for a percentage of his pay to be used to establish a scholarship fund at Rockmont High School, which he attended.

Beyond that, Budde said he plans to establish an organization to be known as "Brad's Buddes" designed to help crippled children in the Kansas City area.

But the frosting on the cake, in my view, was Brad's announcement that he plans to reimburse the University of Southern California for the entire amount of his four-year scholarship at USC. I hope this starts a trend.

"We feel that an athlete has an obligation to return some of the good fortune to the communities that have helped him develop, and to use his athletic prowess to serve as a role model," explained Budde's agent, Leigh Steinberg.

Hurrah for Brad Budde. The dollar amounts involved in his largesse probably are not much, as present professional football payroll contracts run; but they indicate an attitude and a responsibility that are all too rare in professional athletics—and in the economic

life of the nation in general.

Brad Budde won a new fan in his corner. He must be some kind of guy.

Then there's the federal government. According to the paper the other day, the Army is planning to spend \$370,000 to keep 12 dogs warm in the harsh, northern Virginia winter.

The 12 German Shepards are used to sniff out bombs and drugs, and to patrol, and now live in outdoor doghouses at Fort Myer, Va., just outside Washington.

But Army officials have decided the dogs need more comfortable quarters, so they are going to build an indoor shelter for about \$370,000, which, based upon the present size of the K-9 patrol, is more than \$30,000 per dog.

"Considering how much it costs to train these dogs, that's not much," rationalized Dr. Lynn Hissett, veterinarian to the 12 dogs as well as the 31 horses kept at the military post in Arlington, Va., who acknowledged the dogs are perfectly capable of living outside.

And we wonder why the federal budget won't balance! Maybe we should put Brad Budde in charge of Army expenditures.

Some closing Nuts and Jolts from Hod Shewell:

—In proposing his extra gas tax, President Carter apparently hoped the voters would be willing to walk a million miles for one of his smiles.

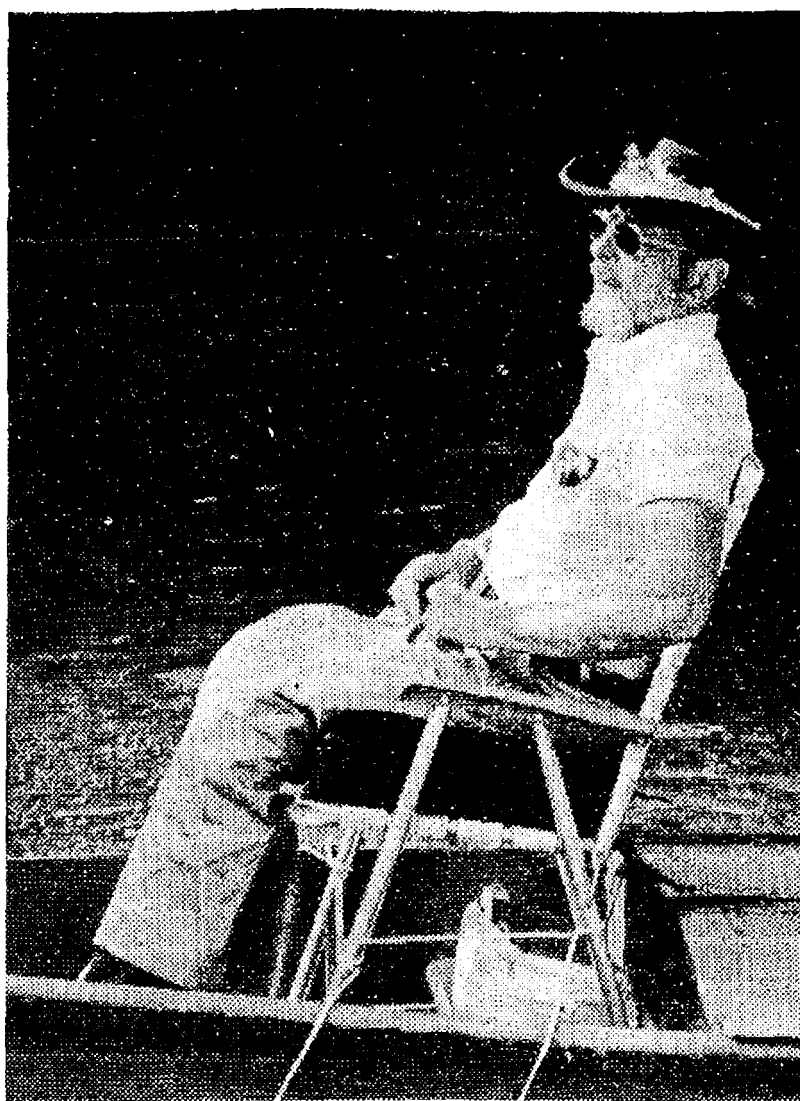

—An optimist is a guy who thinks he's going to get rich or famous writing lines defining optimism.

—There's a new suntan lotion on the market. You don't apply it, you drink it...then your burn turns into a glow.

—Some people have trouble adjusting their glasses when it's really their heads that are on crooked.

—My high school swing group is trying to make a comeback as a new combo called "Rock of Ages."

—A diaper has welded many a broken triangle.

By Michael Delp

It is difficult to imagine this community without the AuSable. So many stories have been written about it and so many photographs attempted that it seems there should be a moratorium on writing anything about the river. For my part, I have lived on the river for eight years. I have written more words than I care to count dealing with bends and pools and sweepers and I have taken my share of pictures. I have waded and floated it with some of the finest people I've known. Everytime on the river I take something with me when I leave and I also leave a part of myself behind.

Some days I don't even notice the river. I look at its surface, maybe a ruffle or two, hoping for a fish to feed, but I never really see the river. Lately, my waders have started to leak and I am keenly aware of water temperature. But, when I'm in the river, many times I fail to register exactly what it means to stand chest deep in ice cold water and hear, see and smell nothing but river.

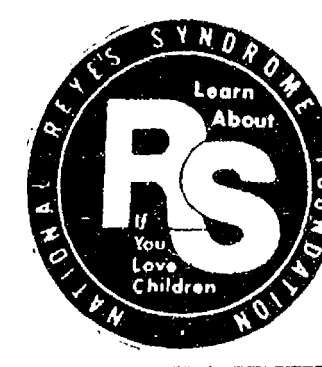

So it is that over the years we grow numb to the beautiful things around our lives. Sometimes it takes the shock of a loss to bring us back to the world of sensation.

My shock came last week when I had the great fortune to float the mainstream with one of Grayling's finest river guides, Mike Wieland and a fishing partner of his, a paraplegic from Richland, Doug Wendzel. Mike has been fishing several years with Doug, who

was paralyzed from the chest down in a severe accident several years ago.

I was in the bow of Dave Lemmen's boat and watched as Doug and Mike and Bill Burdick floated past. To say that is unnerving to watch a man slide past in a riverboat strapped into a chair which itself is strapped to the boat does not do justice to Doug Wendzel's courage. He fished all night and I could hear him talking back over the boat in the darkness. They trailed away from us and I realized at that moment he had rekindled many old feelings I had let wander away; and the next time I waded the leaks were there and my legs felt and ached like legs should.

Homecoming week is here, kids are you ready for the parade? You better hurry. And the other contests that are planned for you: Bingo at the fire barn; baseball games at the school grounds; Graduation Tea in the town hall, for all Graduates. Saturday night the Polka Party and will honor Miss Frederic and her Court and the Citizen of the Year. Fun for all, see you there.

With events and parade such as this it brings everybody out you see more people and your own neighbors you sometimes don't see.

Our Miss Frederic and her court looked nice on their float in the 4th of July parade in Grayling. It was beautiful weather, a great crowd and a real nice parade, and everyone enjoyed the following events afterward. See you next year.

15 members and three guests were in Traverse City at the Cherry County Playhouse to see Vickie Lawrence in Neil Simon's Chapter Two. The ladies had a good time and got to meet the stars and get their autographs and have refreshments with them. This is a yearly event for the Hobby Club ladies. Also while I have these ladies in mind would like them to be recognized for their help in the past when Timberview Village had the Croquet Tournament, for the Adult Foster Care People last month. This club does a lot and sometimes not known for the things they have done. Thank you ladies.

Niece Penny and Robert Shank and children from Ohio visited her uncle the Tom Denno and family, and Grandfather Raymond Denno.

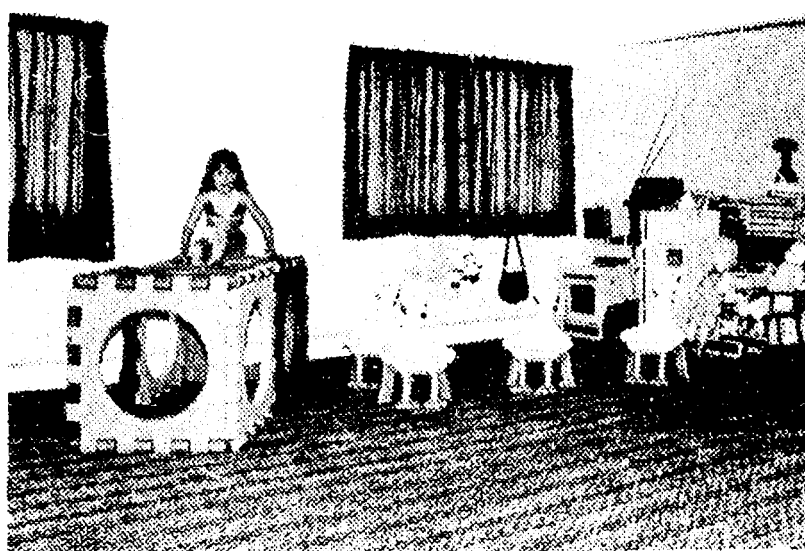

James and Barb Verlinde were happy to have their children home at the same time. Family had a nice cook out and many friends were over.

Morley and Pat Schram and family from Lansing were up to her parents for the weekend. Rev. and Mrs. Robert Taylor. Also their daughter Judy and Brian and grandson Eric Hulbert from Holland, and were also at Brian's mother Eva Hulbert.

We sure had another nice holiday weekend. Many of our friends were up to their summer home and cabins. Call me if you have any news you want in the paper. Eva 348-9477 after 6, Thank you.

Monday the 14 at the center, 1:30 Senior Citizen's for Discount Pictures, in the lunch room.

And our Frederic Satellite Dinner July 18th here at the school. I'll be calling in person or on the phone. Anyone interested in playing shuffleboard? You can play Thursday morning 10 o'clock at the center. Sound like fun. Need a ride call me. Outreach Eva Hulbert. Nice to have Ervin Lince home.

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS

The above named County proposes to request the U.S. Department of Housing and Urban Development to release Federal Funds under Title 1 of the Housing and Community Development Act of 1974 (PL 93-383) to be used for the following project:

County Wide Housing Rehabilitation and Community Facilities Improvement
To rehabilitate housing, street paving and road improvements
Village of Frederic, Grayling Township, Grayling City, Crawford Co., Michigan
\$1,200,000.00

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and, accordingly, the above named County has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The reasons for such decision not to prepare such Statement are as follows: The impact of the proposed project activities on the Environment is negligible and, where such impact exist, they are of a beneficial nature.

An Environmental Review Record respecting the within project has been made by the above named County which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Record is on file at the above address and is available for Public Examination and copying, upon request, between the hours of 9:00 a.m. and 4:00 p.m.

Plan Day Care Center

The Grayling area will soon have a new Day Care Center, and from talking with Pam Fisher, director of the center, area children will have an opportunity for many rich experiences.

The AuSable Day Care Center located on Old Lake Road in the building which once housed the Grayling Sportsman's Club has been completely renovated and redecorated. Children at the center will have trained staff members to promote their growth in physical, emotional, intellectual and social areas. An added benefit is the new play area behind the school where children may select several types of play equipment and will also have the opportunity to study nature right out the back door.

According to Pam, the Center has as one of its main objectives the nurturing of each child through environmental and learning opportunities. Children who attend the center must be at least 2½ years of age and not over 10 years of age.

An open house is being planned at the Center July 11-12 from 11 a.m. to 8 p.m. and interested parents are urged to attend.

To The Voters of Crawford County

I am a Candidate for the Office of Sheriff

I have been in Law Enforcement for almost 27 years, as an Administrator and Street Officer.

20½ years with the Grayling Police Department, of which 20 was as Chief. 1952-1972

4 years as Sheriff of Crawford County 1973-1976

Almost 2½ years as Patrolman with the Grayling Police Department 1978 to the present.

I will not be putting signs and posters on street corner poles, but that does not mean that I am not campaigning. Many think that if you do not flood the country side with signs and posters, that you are not seriously campaigning.

I feel that in a small county (population wise) such as Crawford, that most Voters have already selected their Candidate.

I will try to reach, by Newspaper and Radio, those who have recently moved to Crawford County and the undecided, (and a few of the others).

Be sure to Vote in the Primary Election, it is just as important, as the General Election.

Respectfully,

HAROLD HATFIELD

Thomas Brings "Life" to CCP

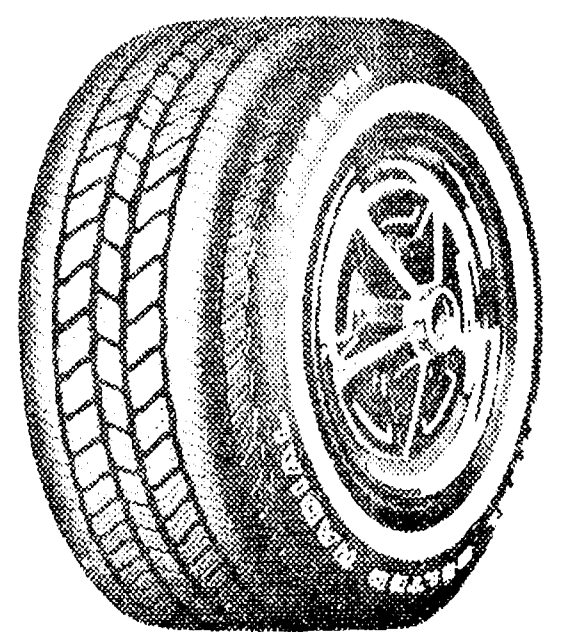

In the opening phase of a national tour Richard Thomas will appear at the Cherry County Playhouse on July 15 through the 20th in the Broadway hit, *Whose Life Is It Anyway?* Starting out at four summer theatres around the country including CCP the show will travel to cities such as Los Angeles, San Francisco, and Chicago this winter.

Known best for his role as "John-Boy" on *The Waltons* Richard Thomas' career encompasses classical acting on stage as well as successful characterizations on television and film. Starting with his Broadway debut in *Sunrise at Campobello* and his first televised appearance in a Hallmark Hall of Fame special, he has performed in such classics as *Strange Interlude*, *St. Joan* by George Bernard Shaw, *Everything In The Garden*, and *Richard III* at the American Shakespeare Festival in Stratford, Ct. Mr. Thomas' screen credits include *Winning*, *Last Summer*, *Red Sky in the Morning*, and *September 30, 1955*. Besides *The Waltons* he has also appeared on television in *The Red Badge of Courage*, *Roots: The Second Generation*, and *All Quiet on the Western Front*.

In recent months *Whose Life Is It Anyway?* has been produced twice on Broadway, once with Tim Conti and most recently with Mary Tyler Moore in the lead role. The Tony award winning play is written by Brian Clark. It concerns a sculptor, Ken Harrison, who becomes a quadriplegic as a result of a car accident. In this situation, the author brings humor and pathos to the stage in a play of survival.

A formal answer will be filed with the Boundary Commission when Councilman Sabin, Engineer Richards and City Manager Morford have met and drafted same on behalf of the City.

Mrs. Westervelt asked about a time goal for completing rehabilitation of the sewer system. Mr. Lehto stated that probably within 2-3 years all the present problems could be eliminated and the planned expansion for future growth would be complete.

Discussion took place concerning the cost split between the City and Grayling Township for the Cemetery operations.

Bright Answer

All this glory from one tiny seed! The sunflower towers taller than a man, its huge golden head filled with thousands of seeds . . . and every seed contains the mystery of life and growth that science cannot explain.

We are surrounded by miracles that man did not create. Who created them? Who created us? By the reasoning powers of our own marvelous minds we can be guided to see that God the Creator has made all things according to His plan, and that we can only achieve our highest development by living in harmony with it.

How can we know God's will for us? We need only a small seed of faith, for He will lead us in His way if we ask Him . . . and that seed will grow and flourish under His loving care.
